TranDotCom Solutions Announces a New Corporate Image

*New Image Reflects Renewed Commitment to the Industry and Focus on our
Core Lines of Business*

Kennesaw, GA, March 4, 2009 TranDotCom is pleased to unveil its new corporate image at the CFSA show in Orlando, Florida. The new image retains the company's traditional "dot" but in a more stylistic and relevant format. The image will be reflected in all corporate communications as well as its Loan Management System. Clients will recognize the new look immediately, but can continue to depend on the reliability of the feature rich systems and services they have depended on since 2000.

As part of the new corporate image, TranDotCom is also introducing a clearer, more distinct representation of its product hierarchy, comprised of **Transaction Systems** and **Professional Services**. These two lines of business integrate into a complete solution that enables lenders to quickly and efficiently meet their business objectives.

The Transaction Systems line of business includes technology for Short Term Lending, Line of Credit, Installment Lending and International Lending. Professional Services includes Call Center, Preferred Partners, Portfolio Management and Client Support.

"Our previous corporate image has served us well for the last eight years, but our image needs to more clearly convey all we bring to the industry in terms of experience, product depth and leadership." said Joseph Fitzpatrick, CEO and Founder of TranDotCom Solutions. "But it's more than just a new image. It also represents a renewed commitment to our clients and the industry while setting the stage for our continued delivery of Systems and Services."
